Two models [designed] for the toughest drilling conditions

HD-SERIES AUGER DRIVES

The Belltec HD-Series hydraulic auger drives available in two models for systems operating 20 and 60 GPM and 2000 to 3000 PSI. The H units are ideal for extreme drilling when paired with the correct H-Series Auger. The HD-Series auger easily mounts to highflow skid loaders, backhoes, and excavators.

MODEL HD-400

ORDER

Maximum Output Torque
Recommended Fluid Flow
Maximum Pressure-Continuous
Recommended Max Auger Dia-
Rock
Recommended Max Auger Dia-
Dirt

OUTPUT SPEED

OUTPUT

Flow GPM	Speed RPM	Pressure PSI
25	56	2000
30	67	2500
35	79	3000
40	90	
45	101	

MODEL HD-500

ORDER

Maximum Output Torque
 Recommended Fluid Flow
 Maximum Pressure-Continuous
 Recommended Max Auger Dia-
 Rock
 Recommended Max Auger Dia-
 Dirt
