

# Work with a **CHAMPION**

C3

Champion Chippers are the ideal solution for the farmer, landscaper, and landowner who appreciate industrial grade quality in a convenient size. Why haul or handle countless loads of brush when you can chip it yourself in minutes? Champion's high speed design requires less power than direct drive chippers, allowing your tractor to power through larger diameter limbs with less mechanical strain. The large hopper opening reduces the time required to de-limb branches. The durable powder-coated finish combined with Pequea's impeccable level of quality makes Champion the choice for your next chipper.

#### STANDARD FEATURES

- 3 point hitch PTO drive standard (optional engine model available)
- High speed rotor requires less horsepower to operate while throwing the chips 10-15 feet farther than direct drive models
- Easy to remove shields to access the 3 cogged v-belt drive.
- 360 degree chip chute rotation
- 4 reversible knives mounted with recessed bolts (no threaded knives)
- The rotor shaft is attached with a tapered bushing which perfectly balances the rotor, making this the smoothest running chipper on the market.
- Adjustable and reversible chip anvil
- Durable powder-coated finish
- Backed by Pequea's no hassle warranty program

#### OPTIONAL FEATURES

- Hydraulic feed (C5 & C8)
- Highway permissible, tow behind engine drive model
- Trailed PTO available
